DUBLIN, Ireland and BRIDGEWATER, N.J., Feb. 29, 2024 (GLOBE NEWSWIRE) -- Amarin Corporation plc (NASDAQ:AMRN), today announced financial results for the guarter and year ended December 31, 2023 and provided an update on the Company's operations.

"Our team is delivering operational momentum in the business. As previously announced in January, in Europe we are showing early signs of progress, particularly in Spain and the U.K.; our U.S. business is continuing its IPE market leadership; and our Rest of World (ROW) partners are advancing plans to maximize patient uptake," said Patrick Holt, President & CEO of Amarin. "We have initiated the shareholder approval process to execute up to a \$50 million share repurchase program. Our focus remains on building momentum in 2024 and beyond for Amarin."

Financial Update

Total net revenue for the three months ended December 31, 2023 was \$74.7 million, compared to \$90.2 million in the corresponding period of 2022, a decrease of 17%. Net product revenue for the three months ended December 31, 2023 was \$70.6 million, compared to \$89.5 million in the corresponding period of 2022, a decrease of 21%. This decrease was driven primarily by a decrease in volume of VASCEPA sales to Amarin's customers in the United States, which were adversely impacted by generic availability in the United States. USA net product revenue was \$64.9 million for the three months ended December 31, 2023 compared to \$88.0 million in the corresponding period of 2022. For the three months ended December 31, 2023, European net product revenue was \$1.5 million and Rest of World (RoW) net product revenue was \$4.2 million primarily from supply shipments to our partner Edding.

Amarin recognized licensing and royalty revenue of approximately \$4.2 million for the three months ended December 31, 2023 compared to \$0.7 million in the corresponding period of 2022 from VASCEPA-related regulatory milestones, including the cardiovascular risk reduction (CVRR) submission, and commercial sales from our partners in Canada, the China region and the Middle East.

Cost of goods sold for the three months ended December 31, 2023 was \$29.6 million, compared to \$26.6 million in the corresponding period of 2022. Amarin's overall gross margin on net product revenue for the three months ended December 31, 2023 was 58%, compared with 70% for the corresponding period of 2022.

Selling, general and administrative expenses for the three months ended December 31, 2023 was \$43.9 million, compared to \$68.1 million in the corresponding period of the prior year. This decrease was primarily due to a reduction in costs from the elimination of our U.S. sales force as part of our organizational restructuring program and previous cost reduction plan and was partially offset by ongoing investments to support commercial operations in Europe.

Research and development expenses for the three months ended December 31, 2023 were \$5.8 million, compared to \$5.2 million in the corresponding period of the prior year.

Under U.S. GAAP, Amarin reported a net loss of \$5.8 million for the three months ended December 31, 2023, or basic and diluted loss per share of \$0.01. This net loss includes \$4.6 million in non-cash stock-based compensation. For the three months ended December 31, 2022, Amarin reported net income of \$0.9 million, or basic and diluted earnings per share of \$0.00. This net income included \$6.6 million in non-cash stock-based compensation expense.

Excluding non-cash stock-based compensation expense and restructuring expense, non-GAAP adjusted net loss was \$0.9 million for the three months ended December 31, 2023 or non-GAAP adjusted basic and diluted loss per share of \$0.00, compared with non-GAAP adjusted net income of \$7.3 million for the three months ended December 31, 2022, or non-GAAP adjusted basic and diluted earnings per share of \$0.02. As of December 31, 2023, Amarin reported aggregate cash and investments of \$321 million.

2024 Financial Outlook

Amarin continues to make progress on reducing operating expenses and managing its cash position and is on-track to deliver \$40 million of annual savings based on the reduction in force announced in July 2023. With the recent cash preservation initiatives, Amarin reiterates its belief that current cash and investments and other assets are adequate to support continued operations including the share repurchase program. We will continue to focus on cash preservation and prudently invest in the right opportunities which are value additive.

About Amarin

Amarin is an innovative pharmaceutical company leading a new paradigm in cardiovascular disease management. We are committed to increasing the scientific understanding of the cardiovascular risk that persists beyond traditional therapies and advancing the treatment of that risk for patients

worldwide. Amarin has offices in Bridgewater, New Jersey in the United States, Dublin in Ireland, Zug in Switzerland, and other countries in Europe as well as commercial partners and suppliers around the world.

About VASCEPA®/VAZKEPA® (icosapent ethyl) Capsules

VASCEPA (icosapent ethyl) capsules are the first prescription treatment approved by the U.S. Food and Drug Administration (FDA) comprised solely of the active ingredient, icosapent ethyl (IPE), a unique form of eicosapentaenoic acid. VASCEPA was launched in the United States in January 2020 as the first drug approved by the U.S. FDA for treatment of the studied high-risk patients with persistent cardiovascular risk despite being on statin therapy. VASCEPA was initially launched in the United States in 2013 based on the drug's initial FDA approved indication for use as an adjunct therapy to diet to reduce triglyceride levels in adult patients with severe (≥500 mg/dL) hypertriglyceridemia. Since launch, VASCEPA has been prescribed more than twenty million times. VASCEPA is covered by most major medical insurance plans. In addition to the United States, VASCEPA is approved and sold in Canada, China, Lebanon and the United Arab Emirates. In Europe, in March 2021 marketing authorization was granted to icosapent ethyl in the European Union for the reduction of risk of cardiovascular events in patients at high cardiovascular risk, under the brand name VAZKEPA. In April 2021 marketing authorization for VAZKEPA (icosapent ethyl) was granted in Great Britain (applying to England, Scotland and Wales). VAZKEPA (icosapent ethyl) is currently approved and sold in Europe in Sweden, Denmark, Finland, Austria, the UK, Spain and the Netherlands.

United States

Indications and Limitation of Use

VASCEPA is indicated:

- As an adjunct to maximally tolerated statin therapy to reduce the risk of myocardial infarction, stroke, coronary
 revascularization and unstable angina requiring hospitalization in adult patients with elevated triglyceride (TG) levels (≥ 150
 mg/dL) and
 - · established cardiovascular disease or
 - diabetes mellitus and two or more additional risk factors for cardiovascular disease.
- As an adjunct to diet to reduce TG levels in adult patients with severe (≥ 500 mg/dL) hypertriglyceridemia.

The effect of VASCEPA on the risk for pancreatitis in patients with severe hypertriglyceridemia has not been determined.

Important Safety Information

- VASCEPA is contraindicated in patients with known hypersensitivity (e.g., anaphylactic reaction) to VASCEPA or any of its components.
- VASCEPA was associated with an increased risk (3% vs 2%) of atrial fibrillation or atrial flutter requiring hospitalization in a
 double-blind, placebo-controlled trial. The incidence of atrial fibrillation was greater in patients with a previous history of
 atrial fibrillation or atrial flutter.
- It is not known whether patients with allergies to fish and/or shellfish are at an increased risk of an allergic reaction to VASCEPA. Patients with such allergies should discontinue VASCEPA if any reactions occur.
- VASCEPA was associated with an increased risk (12% vs 10%) of bleeding in a double-blind, placebo-controlled trial. The
 incidence of bleeding was greater in patients receiving concomitant antithrombotic medications, such as aspirin, clopidogrel
 or warfarin.
- Common adverse reactions in the cardiovascular outcomes trial (incidence ≥3% and ≥1% more frequent than placebo): musculoskeletal pain (4% vs 3%), peripheral edema (7% vs 5%), constipation (5% vs 4%), gout (4% vs 3%), and atrial fibrillation (5% vs 4%).
- Common adverse reactions in the hypertriglyceridemia trials (incidence >1% more frequent than placebo): arthralgia (2% vs 1%) and oropharyngeal pain (1% vs 0.3%).
- Adverse events may be reported by calling 1-855-VASCEPA or the FDA at 1-800-FDA-1088.
- Patients receiving VASCEPA and concomitant anticoagulants and/or anti-platelet agents should be monitored for bleeding.

Additional Information Regarding Amarin Share Repurchase Agreement

The implementation of the repurchase agreement is conditional upon shareholder and UK court approval, as required under UK company law. The Company intends to accelerate its annual general meeting of shareholders early in the second quarter of 2024 in order to seek such shareholder approval, following which it will proceed with the requisite court process to undertake a reduction of capital in order to create the necessary distributable profits for the funding of the repurchases. Amarin anticipates that these steps could be completed by the end of the second quarter of 2024, with share repurchases commencing shortly thereafter. Following receipt of the requisite approvals, Cantor will purchase such ADSs in compliance with the safe harbor provisions of Rule 10b-18 of the U.S. securities laws and the terms of the approved repurchase contract. The repurchase program will conclude at such time as Cantor has purchased \$50 million of ADSs, unless terminated earlier by either Amarin or Cantor, as provided for in the repurchase agreement. Subject to the necessary shareholder and court approvals being obtained, the repurchases will be funded out of distributable profits utilizing the Company's existing cash resources. The repurchase program was approved by the Amarin board in compliance with UK company law regarding distributions and the maintenance of capital. A copy of the repurchase agreement will be available for inspection by Amarin's shareholders at the registered office address of Amarin in the run up to the 2024 annual general meeting and, once entered into, will be available for inspection for at least 10 years from the date of such agreement.

Use of Non-GAAP Adjusted Financial Information

Included in this press release are non-GAAP adjusted financial information as defined by U.S. Securities and Exchange Commission Regulation G. The GAAP financial measure most directly comparable to each non-GAAP adjusted financial measure used or discussed, and a reconciliation of the differences between each non-GAAP adjusted financial measure and the comparable GAAP financial measure, is included in this press release after the consolidated financial statements.

Non-GAAP adjusted net (loss) income was derived by taking GAAP net loss and adjusting it for non-cash stock-based compensation expense and restructuring expense. Management uses these non-GAAP adjusted financial measures for internal reporting and forecasting purposes, when publicly providing its business outlook, to evaluate the company's performance and to evaluate and compensate the company's executives. The company has provided these non-GAAP financial measures in addition to GAAP financial results because it believes that these non-GAAP adjusted financial measures provide investors with a better understanding of the company's historical results from its core business operations.

While management believes that these non-GAAP adjusted financial measures provide useful supplemental information to investors regarding the underlying performance of the company's business operations, investors are reminded to consider these non-GAAP measures in addition to, and not as a substitute for, financial performance measures prepared in accordance with GAAP. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with the company's results of operations as determined in accordance with GAAP. In addition, it should be noted that these non-GAAP financial measures may be different from non-GAAP measures used by other companies, and management may utilize other measures to illustrate performance in the future.

Forward-Looking Statements

This press release contains forward-looking statements which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, including beliefs about Amarin's key achievements in 2023 and the potential impact and outlook for achievements in 2024 and beyond; Amarin's 2024 financial outlook and cash position; Amarin's overall efforts to expand access and reimbursement to VAZKEPA across global markets; and the overall potential and future success of VASCEPA/VAZKEPA and Amarin generally. These forward-looking statements are not promises or guarantees and involve substantial risks and uncertainties. A further list and description of these risks, uncertainties and other risks associated with an investment in Amarin can be found in Amarin's filings with the U.S. Securities and Exchange Commission, including Amarin's annual report on Form 10-K for the full year ended 2023. Existing and prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date they are made. Amarin undertakes no obligation to update or revise the information contained in its forward-looking statements, whether as a result of new information, future events or circumstances or otherwise. Amarin's forward-looking statements do not reflect the potential impact of significant transactions the company may enter into, such as mergers, acquisitions, dispositions, joint ventures or any material agreements that Amarin may enter into, amend or terminate.

Implementation of the share repurchase program is subject to shareholder and UK court approval, which may not be obtained in a timely manner or at all; Cantor may be unable to repurchase some or all of the ADSs within the parameters provided for in the share repurchase agreement; and the share repurchase may not have the expected results.
